

Here and There

Commencing April 15th, the Canadian Pacific Railway, having in mind the expressed wishes of the majority of its patrons, has decided to revert to the c.a.s.m. of permitting no smoking in observation cars of its transcontinental trains.

The production of steel ingots and castings in Canada during the month of February amounted to 70,953 tons, an advance of 72 per cent over the 41,809 tons produced in January. The increase was almost wholly accounted for by the rise in the quantity of open-hearth basic steel ingots made for the use of producers.

Canadian farm products exported to the United States during February totalled \$2,440,203, an increase of \$961,570 over February last year, according to a report published by the Bureau of Statistics. Wheat exports to the United States were valued at \$101,714 in February, as against \$25,157 in February of the previous year.

Under the agreement with the Imperial Government under the Empire Settlement Act, Canada, spent \$30,697 in assisted passages for some 2,653 British immigrants in the fiscal year just closed. In the past four years, the Dominion Government has spent nearly \$1,500,000 in promoting immigration from Great Britain to Canada.

By arrangements made by Hon. George Headly, Minister of Agriculture, a trial shipment of cows and steers will be made in the near future to Japan for the purpose of testing out the possibilities of a market for Alberta livestock in that country. It is also the purpose of the department to send with the shipment a qualified investigator who will look into the possibilities of a market for all Albertan farm products.

For the first time in the past two or three years the Saskatchewan Co-operative Creameries Limited is shipping butter in carload lots direct to the cities of the United States. A carload shipment was recently made from Saskatoon to Philadelphia. Two carloads were also shipped to Chicago, where they realized good prices. Each car contained between 25,000 and 30,000 pounds of Saskatchewan butter.

Speaking at Quebec recently, E. W. Beatty, President of the Canadian Pacific Railway, summarized the magnitude of the operations of the Company. It has 15,000 miles of railway in Canada and controls 5,200 miles in the United States. It owns and operates telegraph and express systems, 13 hotels, 16 bungalow camps and rest houses, and has in commission on the Atlantic and Pacific, Canadian lakes and the British Columbia coast, 31 ships aggregating approximately 450,000 gross tons. Its personnel varies in numbers with business conditions from 65,000 to 100,000 employees in all branches of the service.

What must constitute a record in the rapid handling of an important consignment from the Orient was established recently by the Canadian Pacific Railway when shipping a quantity of silk from Yokohama to New York. The consignment, which was the largest forwarded from Asia since the recent slump in the silk market, left Yokohama on March 22nd on the Canadian Pacific steamer "Empress of Asia." Specially stowed for prompt discharge on arrival at Vancouver, the shipment was so rapidly transferred to the waiting train that only 13 1/4 minutes per car elapsed between the docking of the ship and the departure of the fast freight and delivery was made at New York at midnight April 4th, the through time from Yokohama to New York being but 13 days, 8 hours and 13 minutes, calendar time.

Teachers to Tour Dominion

Included in the itinerary are Lake Louise, left; Vernon on river, center; Nipigon, where children are seen holding the flag, and Banff, right.

To teach the youth of Canada about Canada and do for the country justice it is first necessary that one should see Canada. That is the view of the Canadian Teachers' Federation and no one will question it. With the idea of correcting any deficiencies in this respect under which its members may be labouring the Federation, accordingly, has decided to make its trip to Victoria, B. C., for this year's annual convention as a personally conducted tour, lasting from August 4th to 12th and promising a very interesting and instructive programme for the pedagogues and their friends.

Arranged by Dr. A. E. Hardy, Vice-President of the Federation, and R. E. Howe, President, Provincial Association of Protestant Teachers, Quebec, in conjunction with the Canadian Pacific Railway, the tour covers as wide a field as is humanly possible in the time allotted. It will be made on a special train starting from Toronto and following the main line of the Canadian Pacific throughout. Stop-overs varying from a few hours to a day will be made at many points of interest along the route to give the teachers a full opportunity of seeing the sights at these places. Port William and Port Arthur, the great inland grain ports of this country and the funnel through which Canada's huge crops pour out to feed the world. Winnipeg, the world's greatest grain market, and boasting the world's greatest railway yards in those of the Canadian Pacific, the bustling prairie cities of Regina and Moose Jaw, Calgary, the metropolis of the prairie provinces and a cow-town only a few years ago Vancouver, the beautiful seaport on the mid Pacific coast which is forging ahead at almost terrifying speed—these are all entered on the schedule for prolonged inspection. A long stop will also be made at Banff Springs Hotel, the palatial hotel in the heart of the Rockies where all the recreations provided, such as hiking, riding, swimming and mountain climbing, will be open to the

teachers. Lake Louise, called "probably the most perfect bit of scenery in the known world," will also be visited, lunch being taken at the Chateau there. The magnificent run through the Rockies to the coast will be made in daylight.

The entertainments arranged for the teachers include many automobile drives, a reception at the Twin Cities, luncheon at Winnipeg and Calgary and a reception at Vancouver, under the auspices of the local Teachers' Association in each of the cities mentioned, luncheon at Reg.'s as the guests of the Premier and Government of Saskatchewan, followed by a drive around the city in automobiles provided by the Rotary Club. While in Moose Jaw, the visitors will also be taken for a drive by the local Board of Trade.

A special return trip under similar arrangements for those who care to take it has also been planned. Starting from Victoria, it includes the wonderful run through the mountains over the Kettle Valley Railway, the steamer trips over beautiful Okanagan and Kootenay Lakes, through the heart of the fruit-growing country, thence to Lake Windermere, and by motor over the splendid new Banff-Lake Windermere Highway to Vermilion River Camp and Banff. Then come Edmonton, the prosperous gateway to Canada's rich Northwest, Saskatoon, an important prairie city, Winnipeg, Kenora. Port William and across the Great Lakes via the Soo to Port McNicoll and Toronto. This trip lasts from August 12th to 23rd and includes stop-over for dinner at Penticton, dinner, a night's stay and breakfast at lovely Lake Windermere Camp, lunch at Vermilion River Camp, and a day at Banff. Edmonton, Winnipeg and Devil's Gap Camp, the delightful resort on the Lake of the Woods, near Kenora. The visits to the camps, the motor run through the mountains and the refreshing sail across the Great Lakes alone make this return trip infinitely desirable.

Announce Third Annual Tour to the Coast.

Special Train from Winnipeg. Stops Made at Various Points of Interest.

PERSONALLY CONDUCTED.

This tour, which will be interesting to the holiday maker and of great educational value to the student, is being conducted by the Canadian Pacific Railway, offering an unusual opportunity for seeing, under the most favorable conditions, the Canadian Rockies, including Jasper National Park, and the Pacific Coast.

The special train, operated in connection with this tour and consisting of modern sleeping car equipment, dining car and full observation car, will leave Winnipeg July 24. After stopping at various points of interest, the train will arrive at Prince Rupert on July 7th. At this latter point, the party will embark on one of the palatial steamships of the Canadian National Pacific Coast service for a cruise of 500 miles to the famous "Isle of the Skuas" in Vancouver. While the tour terminates at Vancouver, those who desire to make a trip to Victoria, may have their tickets read "Victoria" as their destination without any additional cost.

The local agent of the Canadian National Railways will be pleased to give you full particulars of this tour, including the cost, choice of routes returning, etc.

Late Spring Curtains Crop

Some Reduction in Wheat Acreage in Saskatchewan Is Expected

The lateness of the season is responsible for an estimated reduction of 10 per cent. in the acreage that will be seeded to wheat in the province this year, according to a crop report issued by the bureau of statistics of the Saskatchewan Department of Agriculture.

On the other hand, an increase of 10 per cent. in the area sown to flax is anticipated. The reports indicate that fall rye has wintered well in most places.

A shortage of farm help is reported in some places, but in others the demand has been fairly well satisfied.

Corns, Warts, Bunions, Painlessly Removed

Don't limp any longer, don't suffer another hour from corns. The oldest remedy and the best, the one that for fifty years has proved a true success, will lift out your corns in a hurry. Putnam's Painless Corn and Wart Extractor is the one remedy to use. Refuse a substitute, 25c every where.

Some charity begins at home, but the best brand is directed toward the homeless. Minard's Liniment for Distemper.

Why, Certainly! "Your daughter has promised to marry me. Will you forgive me for taking her away from you?" "Forgive you? Why, that's what the party was to."

Market For Store Cattle

Possibilities for Canada in Great Britain Are Unlimited

The market possibilities for Canadian store cattle in Great Britain are almost unlimited. J. H. Criddle, deputy minister of agriculture, told the agriculture committee of the House of Commons, Ottawa. With Ireland shipping as many as one million head per year to England and Scotland, the market is there for Canadian store cattle. Up to the present Canada has only shipped a small number owing to the cost of marketing, he said. The market for chilled beef in the United Kingdom might be made very profitable if the position of the Canadian production could be made secure.

A SPLENDID LAXATIVE FOR THE BABY

Mothers should constantly be on guard to keep baby's bowels working freely and his stomach sweet, for ailments of the stomach and bowels which little ones suffer are caused by derangements of the stomach and bowels. Dr. J. W. Williams' Tablets are a splendid laxative for the baby. They are mild but thorough; contain neither opiates nor narcotics, and are absolutely guaranteed to be safe and effective for either the newborn babe or the growing child. By their action on the bowels and stomach they drive out constipation and indigestion; break up colds and simple fevers; make the dreaded teething period easy. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Chinese Phone Girls Quick

China's telephone system is the most up-to-date in the world. So declares Norman W. Anderson, a telephone engineer of the Shanghai Municipal Telephone Company, who arrived at Liverpool on the Canadian Pacific liner Montclair.

Statistics, he states, show that Chinese operators can secure a connection in "three and a half seconds, whereas in London the average call takes six seconds to connect.

Worms cause fretfulness and rob the child of the great pleasure of eating. Mother Graves' Worm Expeller will clear the stomach and intestines and restore healthfulness.

Doing Away With Sleep

English Scientist Claims Discovery of Substitute for Real Thing

It is with mixed feelings that one learns of the discovery by an English scientist of a process which will do away with the need of sleep. During sleep the weary brain-cells are recharged with vital force, which is electro-chemical in character. Dr. David Fraser Harris has devised an apparatus for recharging the brain-cells with the vital force of the requisite quantity and quality. So it may be that, in the near future, we shall be able to dispense with sleep, and obtain in a few minutes all the recuperative benefit which mankind has heretofore gained by "drinking deep of all the blessedness of sleep."

Time can thus be saved—but how much would be lost! For sleep is not desirable and desired only because it recharges the brain-cells, it brings mercurial oblivion to the woes and troubles of life. It stays hasty and ill-considered action, and prepares the way for the wise second thought. Not alone in a physical sense is it "tired Nature's sweet restorer." For many other reasons do most of us feel like invoking the sentiment of Sancho Panza, "God bless the man who first invented sleep."

Somehow we are compelled to doubt if the scientific substitute for sleep will ever displace the real thing, even if it were to prove as effective as its discoverer hopes. It may be used in emergencies, to enable people to keep going when they are fatigued and have no time to sleep. But Nature's ways are best.—Hamilton Herald.

Clark's Beans With Pork

For the amount of food value which they contain Clark's Beans and Pork are a most economical as well as a most delicious food.

"Let the Clark Kitchens help you." Great Britain in 1922 had 25,041,550 tons of shipping, 5,000,000 more than its nearest rival, the United States.

Minard's Liniment, the Athlete's Remedy

WORLD HAPPENINGS BRIEFLY TOLD

King George has signed the Anglo-American treaty providing a 12-mile limit for search and seizure of rum runners off the American coast.

The Dayarian Landtag has been dissolved, says a message from Munich. The cabinet, headed by Dr. Von Kallig, has resigned.

Six Italian emigrants who were about to embark for Canada were taken into custody at Cherbourg, France, on an allegation that the passports they held were forged. The passports were printed in the French language.

A serious epidemic of cholera has swept over the Behar division of Bengal, India, where more than 10,000 deaths have occurred this year. In the worst affected district 1,000 died last week. The epidemic is still spreading.

The first Hebrideans to arrive in Canada via the St. Lawrence River route this season were disembarked at Quebec, May 5, from the Canadian Pacific steamer Marloch, from Glasgow and Stornoway. There were upwards of 200 in the party.

Eighteen grain boats on April 24 took out of Port William 2,617,000 bushels of wheat, oats and flax, the Canadian taking a small cargo of flax alone to Superior. The Keekatta, of the Canadian Pacific lake fleet, and the Montreal, of the Northern Navigation Company, both cleared with passengers and freight.

Women's Ailments Caused by Neglect

Proper Treatment Will Quickly Bring Back Robust Health and Good Spirits

Women are on the whole more sickly than men. One reason is that their system is more complicated; another and more important reason is, they put off measures of relief too long. At the beginning, constipation is the cause of the great distress women's ailments. The blood becomes weakened and polluted—the nerves suffer, and a run-down condition takes root.

Because of their mildness of action as a system regulator, no medicine for women can compare with Dr. Hamilton's Pills. The kidneys quickly respond to the remedial action of Dr. Hamilton's Pills, and the result is as you would expect—pains in the back and side, shortness of breath, and bad color disappear—the functions of the body then operate naturally, congestion and pain are prevented, and perfect health returns.

Thousands of happy women say Dr. Hamilton's Pills are the greatest and best blood purifier, the finest complexion renewer, the most certain regulating medicine known. Sold by all druggists and storekeepers, 25c per box, five for \$1.00 postpaid, from The Catarrhine Co., Montreal.

Settlers' Effects Moved

Settlers' effects, exported during the last fiscal year, were \$10,795,941 compared with \$7,721,992 in the previous year. Settlers' effects imported were \$6,114,702 as against \$6,205,085.

MRS. JOHN SIMPSON

Cargo Worth Millions

C.P.R. Liner Carried Shipment of Silk and Siberian Skins

With several million dollars worth of silk, the largest cargo of Siberian skins ever brought across the Atlantic Ocean, and a passenger list of over 700, the Canadian Pacific steamship Empress of Russia docked at Vancouver recently. Within a few minutes from the time the big liner was tied up, the silk was being emptied from her holds into the specially fitted box cars which awaited it. Less than three hours later the entire shipment pulled out of the railway yards for its destination in the eastern markets.

Miller's Worm Powders can do no injury to the most delicate child. Any child, or infant in the state of adolescence, who is infested with worms can take this preparation without a quail of the stomach, and will find in it a sure relief and a full protection from these destructive pests, which are responsible for many diseases and great suffering to legions of little ones.

Alberta's Good Record Alberta's average wheat yield for twenty-five years ending with 1923 was 18 bushels per acre, as compared with 16.9 in North Dakota, 11.4 in South Dakota, 15.1 in Manitoba, and 12.5 Kansas.

SUNDAY SCHOOL LESSON

MAY 18

ISAIAH AND THE ASSYRIAN CRISIS

Golden Text: God is our refuge and strength. A very present help in trouble. Psalm 46:1.

Lesson: 2 Kings, Chapters 18 to 20; Isaiah, Chapters 36 to 38.

The Text Explained and Illumined: Hezekiah's Prayer on Receiving Sennacherib's Message, verses 14-20. Sennacherib, King of Assyria, was in the neighborhood of Judah with a vast army. See the Historical Background. He sent a letter to Hezekiah, King of Judah, designed to show Hezekiah how hopeless was resistance on his part. "Let not thy God in whom thou trustest deceive thee, saying, Jerusalem shall not be given into the hands of the King of Assyria," Sennacherib wrote. "Behold, thou hast heard what the Kings of Assyria have done to all lands, by destroying them utterly; and shall thou be delivered?" Well did Hezekiah know his enemy's power. He was in desperate straits, but as Matthew Henry says somewhere in David, "when he was at his wits' end he was not at his faith's end." He took the letter into the temple and "spread it before Jehovah." "If a letter is not grave enough to be spread before God, it is too small to annoy us." "O God of hosts," he cried in the anguish of his heart, "hear all the words of Sennacherib, who hath sent to defy the living God. O Jehovah our God, save us from his hand, that all kingdoms of the earth may know that thou art Jehovah, even thou only." "Trouble and perplexity drive man to prayer, and prayer drives away trouble and perplexity" (Melancthon).

Will Film Mt. Everest Climb

Elaborate preparations have been made to take motion pictures of the third expedition to climb Mount Everest, which is soon leaving England. The film camera is to be concentrated in one box and carried by a mule. A camera operated by clockwork will be used.

Praises this Asthma Remedy: A grateful user of Dr. J. D. Kellogg's Asthma Remedy finds it the only remedy that will give relief, though for thirteen years he had sought other help. Years of needless suffering may be prevented by using this wonderful remedy at the first warning of trouble. Its use is simple, its cost is slight, and it can be purchased almost anywhere.

Mr. Hadley was down yesterday from Styal.

Young Warnock, who was thrown from a land pucker last week on the farm of his father's, north of Spruce Grove, when the team he had was driving ran away, is making good progress toward recovery.

A sports patron inquires why some of these hectic baseball meetings were not held when the weather was cool enough for boxing and wrestling.

Edmonton Beach is already assuming a summery appearance, several families, including the Templemans and the Dwyers, having moved out. The popular manager, Mr. J. A. Barrie, is getting everything in readiness for the opening.

A fire Saturday last on the Jim Warner farm at Holborn destroyed several lots of lumber, the following being some of the losers: T. Scott, James Warner, E. E. Stiles and Carpenter Anderson. The lumber for Holborn C.F.A. had also been destroyed.

Great interest is being played in the prizes being offered by the Provincial Department of Agriculture for the shooting of crows, magpies and gophers.

The Women's Institute Girls Club of Alberta is meeting in convention in Jasper Park on July 2, 3, 4.

Sprout Your Potatoes.

Growers of early potatoes have long realized the advantage of sprouting their seed tubers by bringing them up out of the cellar in advance of planting and exposing to shallow trays in a light, fairly warm room, where they can form stout green sprouts, not readily broken off in handling.

A similar practice may increase a main crop in regions where the active growing season is too brief to permit full development of the standard varieties.

Tuber expansion takes place chiefly after blossoming. The size of the crop depends largely upon the vigor of the vine growth and the period of suitable weather between the blossoming and the death of the tops.

By forwarding growth and hastening the date of blossoming, sprouting frequently increases not only the yield but the percentage of dry matter in the crop.

The Weekly Poem.

Little beams of moonlight,
Little hugs and kisses,
Make a little maiden
Change her name to Mrs.
Then you keep an altar
To help you keep your date.
And the best place to get it
Is telephone up thirty digits.
---Ray's Magazine.

Here and There

For the first time in Ontario, an attempt will be made this spring to organize a voluntary egg pool. Arrangements for the undertaking have been completed by the United Farmers' Co-operative Company, and it is hoped to control absolutely the egg market in the province.

During the year 1923, 5,537 tourist automobiles entered the province of Nova Scotia, the Land of Evangeline, according to the annual report of the Nova Scotia Tourist Commission. Altogether 63,000 tourists visited the province and contributed a sum estimated at \$5,000,000.

A picked detachment of an officer and ten men of the Royal Canadian Mounted Police recently crossed the Atlantic on the Canadian Pacific liner Melita. Their duty will be to guard the Canadian exhibits at the British Empire Exhibition. The Exhibition and buildings cost about \$300,000,000.

A chain of factories stretching across Canada will be established by the Dominion Tar and Paper Company, sponsored by English interests. This was announced by the Earl of Dufferin, C. and Sir Harold Bolton after a recent visit to Canada. Sites have already been secured in Montreal, Winnipeg, Vancouver and Toronto.

Canada's trade balance is being steadily maintained, for, according to the report just issued, the imports for that month, which totalled \$23,133,882, showed a decrease of \$1,737,454, from the same month last year, while the exports for February this year, totalling \$27,274,543, showed an increase of \$9,618,352.

Hon. George H. Henry, Ontario minister of public works and highways, has announced a change in the method of financing the planting of trees along public highways. Instead of sending out its own workmen, he says, the Government has a scheme whereby farmers plant trees in front of their own property, to be financed so much per acre as planted.

Over \$1,000 has been paid by the Province of New Brunswick in wild cat bounties since the commencement of the present fiscal year. Already approximately 400 claims for the \$3 bounty offered for each animal have been handled by the chief game warden's branch of the Department of Lands and Forests, as compared with 31 claims made in 1923, following the bounty offered by the legislature in that year.

The splendid success attained by irrigation in Alberta is evidenced by the last financial statement of the Water Irrigation District. The report reveals a total surplus collectable or on hand of \$30,000, of which \$10,000 is on deposit in the bank. Operations have been so satisfactory that negotiations have been entered into with the Canadian Pacific Railway to set up a sinking fund of \$5,000 to \$5,000 to reduce the bond which the district has by the railway. In this way it is hoped that the district will be cleared of debt in a few years.

The Canadian Pacific Railway announced its winter cruises in 1925, one round the world and the other to the Mediterranean. The 25,000-ton liner of France has been selected for the former cruise, which will last four months and will include visits to all the globe. She will start from New York on January 27th. The ship has been recently refitted to an oil-burner and entirely renovated. The Empress of Scotland, 8,500 tons, will make the Mediterranean cruise, lasting four months and including all points of interest on that sea.

The Trans-Canada Limited, the crack city train of the Canadian Pacific between Montreal and Vancouver, and the longest distance and fastest time-table service in the world, will resume service May 1, at both ends of the route. The running time between Montreal and Vancouver, formerly 92 hours, has been cut by two hours, and the running time between Toronto and Vancouver, formerly 85 hours and 55 minutes, by one hour and 15 minutes. These cuts will benefit those going to Europe and the Orient.

INOA MUNICIPAL DISTRICT No. 520.

Div. 1. Muriel McKinlay
Div. 2. R. P. Shaw
